Hope for Japan exhibition

In 2011 Japan had a terrible tsunami and 22.000 citizens died, this was a terrible disaster for this country and the rest of the world was shocked. The poster "Hope for Japan" was made for an exhibition of posters to give a message of hope to the country and many designers made a great posters. I try to transmit clearly with a few elements and high contrast, the situation of the country, represents with the silhouette of a sad person with a tear of blood, and in the same time this silhouette represents the tsunami entering to the country. I think the design poster help people to never forget this tragedy and to transmit a message of hope

Covid 19 Poster Exhibition

The Poster Exhibition on the topic of coronavirus (Covid19) was held in Iran. The exhibition was organized by Hossein Mohammadi Vahidi with the participation of borderless Graphic designers group from Canada and Artistic Secretary by Naser Nasiri It was held in Tehran, Iran at Ideaschool.
